

ACIDULATE 45T:

Organic Acid Cleaner

Need a cleaner that will stay working even when exposed to air? Acidulate 45T is a blend of organic acids and Humectants specifically designed to never “dry out” when exposed to air for long periods of time.

Acidulate 45T's unique acid blend has been formulated to cut through urine scale by utilizing a combination of chelation, wetting agents and acidity.

This organic acid blend works well in the veterinary industries and has been shown to be incredibly effective for the chelation of mineral deposits.

Cleaning solutions can be neutralized while washing without precipitating mineral salts. Additionally, this remarkable product is extremely effective through a wide pH range and does not depend on creating a low pH to remove urine scale deposits.

POWERFUL

Incredibly effective against mineral deposits

FLEXIBLE

Does not depend on creating a low pH

SPECIALIZED

Specially formulated to never “dry out” when exposed to air

SAFE

Won't reduce the life of most plastic caging

ACIDULATE 45T:

A Complete Cage Washer

Acidulate 45T is formulated to be used in re-circulating washers that need to have a chemical free final rinse or a neutralized wash cycle. It has a unique chemistry that can balance the need to clean polycarbonate with the desire not to reduce the life of most plastic caging when autoclaving is necessary.

Acidulate 45T is designed to be neutralized and is compatible with detergents when mixed as a solution. Acidulate 45T can be automatically fed into cage washing equipment either as a primary urine scale remover or as a secondary metal brightener in a two detergent system.

Acidulate 45T can also be used in re-circulating conveyor washing equipment. Ask your Quip Laboratories' Technical Specialist for recommendations on your particular needs.

PACKAGING

Packaged in 5, 15, 30 and 55 gallon containers.

INDUSTRIES

Biomedical Research,
Companion Animal
Care

USES

Recommended for
recirculating rack
and cage washers.

HANDLING

Keep container out of
heat and direct sun-
light.
