

THE **AQUEO** SYSTEM™

AQUEO Alkaline: **Aquatic Housing Detergent**

At the core of the AQUEO SYSTEM is Aqueo Alkaline. This extremely effective, Potassium-Hydroxide based detergent is designed for use on aquatic housing. Aqueo Alkaline has been specially formulated for algae and biofilm removal, and is effective without manual scrubbing or pre-treatment.

- Free of phosphates and active chlorine
- Removes organic residues on animal housing
- Non-toxic to aquatic organisms
- Can be neutralized easily with our Aqueo Acid Neutralizer

AQUEO OX

Hydrogen Peroxide Oxidizer

Aqueo OX is a hydrogen peroxide-based Oxidizer designed for use on Aquatic Caging. Aqueo OX can power through stains and stubborn soils as well as aid in sanitation in your automatic wash cycle. Aqueo OX has been specially formulated to work with our three part Aqueo Aquatic Wash system.

- Hydrogen Peroxide is safe and extremely effective
- Powers through tough, stuck-on soils and stains
- Non-toxic to aquatic organisms

AQUEO ACID-C

Acid Neutralizer

Aqueo Acid-C is a new citric-acid based neutralizer designed for use on Aquatic Caging. Aqueo Acid has been specially formulated to work with Aqueo Alkaline in our three part Aquatic Wash system.

- Free of phosphates and active chlorine
- Neutralizes Aqueo Alkaline
- Non-toxic to aquatic organisms
