

ViveStep™

VIVESTEP™

- 2 lb sleeves (case of 12)
- 10 lb pail
- 100 lb drum
- 400 lb drum

ITEM CODES

- 30310100
- 30310101
- 30310102
- 30310103

BENEFITS

- o Excellent material compatibility
- o Won't break down footwear
- o Not inactivated by organic material
- o Does not increase the risk of slipping injuries
- o Easily verifiable active ingredients
- o Provides lasting protection for up to 8 weeks with proper management
- o Odorless

KILLS PATHOGENS + EFFECTIVE AGAINST VIRUSES INCLUDING:

- o *Escherichia coli*
- o *Salmonella enterica*
- o *Cronobacter sakazakii*
- o *Campylobacter jejuni*
- o Feline calicivirus
- o Rotavirus
- o Avian influenza A
- o Newcastle disease virus
- o PED virus
- o PRRS virus

PRODUCT DESCRIPTION

For years, many research facilities have relied on liquid bleach filled footbaths to prevent cross contamination. However liquid bleach has three primary issues:

- o It breaks down outsoles of footwear.
- o Its efficacy can't be easily verified.
- o It can be a slipping hazard.

That's why Quip Labs and Sterilex have joined forces to create ViveStep. Based on proprietary PerQuat® chemistry, ViveStep is applied dry and designed to sanitize floors and boots—and reduce cross contamination—in animal research facilities including those housing cows, swine, primates and rabbits.

Unlike bleach and other liquid footbath sanitizers, ViveStep has excellent material compatibility and won't break down footwear. It also doesn't increase the risk of slipping injuries. ViveStep is odorless and provides lasting protection with easily verifiable active ingredients that remain stable for up to 8 weeks with proper management.

None

COMPATIBILITY

Compatibility testing results for **ViveStep** on common materials

Material	Compatibility	Material	Compatibility
304 Stainless	Compatible	Dairy Brick	Compatible
316 Stainless	Compatible	Flowcrete (Flowfresh HF)	Compatible
Galvanized	Compatible	Flowcrete (Flowfresh SL)	Compatible
Brass	Non-Compatible ¹	Epoxy-Coated Concrete Block	Compatible
Aluminum 6061	Compatible ²	Acrylic-Coated Concrete Block	Compatible
Aluminum 7075	Compatible ²	Sealed Concrete Block	Compatible
Mild/Cold-Rolled Steel A366	Non-Compatible ¹	Ceramic Tile	Compatible
Cast Iron	Non-Compatible ³	Vinyl Tile	Non-Compatible ⁴

¹Severe oxidation

²Very minor pitting observed

³Can cause rusting on clean cast iron surface (similar to water)

⁴Tacky feel, Light color stains

DIRECTIONS FOR USE

Refer to label for full directions for use. ViveStep is approved as a sanitizer in a variety of applications. ViveStep can be applied as a registered sanitizer in its packaged form or can be pre-diluted in water and applied as a sanitizer to non-food contact surfaces. ViveStep does not become active until it is exposed to moisture.

ViveStep actives/concentrations can be confirmed using the ViveStep Test Strip Kit (LXT003) available through AquaPhoenix Scientific.

PRECAUTIONS

Please refer to SDS for product safety information and handling precautions.

100 lb + 400 lb drums

2 lb sleeves

10 lb pail
