CORONAVIRUS DISEASE 2019 (COVID-19)

What are Coronaviruses?

Coronaviruses are a type of virus. There are many different kinds, and some cause disease. A newly identified type has caused a recent outbreak of respiratory illness now called COVID-19. According to WHO, the new coronavirus (2019-nCoV) is a special strain of coronavirus that has not been previously found in humans.

Q: How can I prevent COVID-19?

A: The best way to prevent illness is to avoid being exposed to the virus. CDC recommends everyday preventive actions to help prevent the spread of respiratory diseases.

Q: What treatments are available for COVID-19?

A: People with COVID-19 should receive supportive care to help relieve symptoms. People with mild symptoms are able to recover at home.

Q: Should I purchase personal protective equipment such as facemasks or N95 respirators for me and my family?

A: No. Surgical masks and N95s need to be reserved for use by health care workers, first responders, and other frontline workers whose jobs put them at much greater risk of acquiring COVID-19.

Q: Should I wear a face covering or face mask when I go out in public?

A: CDC recommends wearing cloth face coverings in public when other social distancing measures are difficult to maintain especially in areas of significant community-based transmission of the coronavirus.

Q: Can disinfectant sprays or wipes be used on my skin, injected, inhaled, or ingested to prevent or treat COVID-19?

A: No. Always follow the instructions on household cleaners. Disinfectant sprays or wipes are intended for use on hard, non-porous surfaces.

Q: Is hand sanitizer effective against COVID-19?

If soap and water are not available, CDC recommends consumers use an alcohol-based hand sanitizer that contains at least 60% alcohol.

Sterymax Electrostatic Sprayer & MB-10 Tablets Disinfectant

Sterymax Electrostatic **Sprayer**

- Patented electrostatic charge provides 360 degree complete surface coverage
- Touchless electrostatic delivery of MB-10 disinfectant
- 33.8oz refillable tank allows you coat up to 2800 sq. ft. on 40 micron setting
- 4 hours of continuous run time
- 3-in-1 nozzle lets you set the spray particle size
- Easy to use

MB-10 Tablets

- EPA registered disinfectant multipurpose tablets
- Ready to use in minutes
- No smell, non-corrosive & zero cytotoxicity
- **Food contact-safe sanitizer (25ppm)**
- Kills Coronavirus SARS-CoV-2, Norovirus, MRSA, Cold and Flu viruses
- Stable and keeps potency and effectiveness for 7 days

MB-10 Tablets

The American Chemistry Council's (ACC) Center for Biocide Chemistries (CBC) has compiled a list of products that have been approved by the U.S. Environmental Protection Agency (EPA) for use against emerging enveloped viral pathogens and can be used during the current novel coronavirus (COVID-19) outbreak. Refer to the CDC website at <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2> for additional information.

| Kill Claims | Concentration (PPM) | Dilution |
|---|---------------------|--|
| <u>SANITIZER</u> Food contact surface sanitizer (No Rinse) 60 second contact time | 25 ppm | 1 x 1.5 gram tablet/ 1 gallon of water. Fill Tank. |
| <u>HOSPITAL GRADE DISINFECTION</u> Coronaviruses SARS-CoV-2, Cold & flu virus' (including H1N1), Salmonella & Staph 10 minutes contact time | 100 ppm | 1 x 1.5mg tab / 1 Sterymax tank (quart) |

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST COVID-19, HIV, HBV & HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/ BODY FLUIDS that involve healthcare settings, or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects soiled with blood or body fluids can be associated with the transmission of COVID-19, HIV-1, HBV and HCV. MB-10 Tablets® destroy COVID-19, HIV-1, HBV and HCV on pre-cleaned environmental surfaces/objects previously soiled with blood or other body fluids at 200 ppm and 1 minute contact (10 minutes for HBV and HCV).

PERSONAL PROTECTION: The worker should wear disposable latex gloves, gown, mask and eye protection to prevent contamination from soiled items.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of MB-10 Tablets® solution.

CONTACT TIME: Allow MB-10 Tablets® solution to contact treated items for 1 minute (10 minutes for COVID-19, HBV and HCV). A contact time of 1 minute will not control other common types of viruses and bacteria.

DISPOSAL OF INFECTIOUS MATERIALS: Any blood and other body fluids should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

AX electrostatic sprayer is warranted to the original owner, purchased from an authorized Whynter dealer for one year from the original purchase date against defects in material and workmanship under normal usage. Should your WHYNTER product prove defective within one year from the date of purchase, contact Whynter's Customer Support team with the serial number and proof of purchase to make a warranty claim. Whynter will repair or replace any parts found defective with new or remanufactured parts or exchange the defective product with a new, refurbished, or remanufactured product at our discretion.
